## Affiliation Agreement between the Italian Society for Virology and *Viruses*

The journal will display on its website a text saying that the Italian Society for Virology (SIV-ISV) is an affiliated society to [Viruses](#) and SIV-ISV will display a similar text on its website.

*Viruses* is published in open access model, which means:

- everyone has free and unlimited access to the full-text of all articles published in the journal.
- everyone is free to re-use the published material if proper accreditation/citation of the original publication is given.
- the authors retain the copyright of their work instead of transferring it to the publisher.
- open access publication is supported by article processing charges paid by the authors, upon acceptance of their article. However, most of the funding is ensured by the authors' institutes or research funding agencies.

Publication in open access model gives a higher visibility to the research published in the journal, by enabling researchers and practitioners from all over the world to have free access to scientific information.

### Benefits for the SIV-ISV

1. A 20% discount for article processing fees to SIV-ISV members;
2. Dedicated Special Issues related to the SEV conferences, to include selected papers published in open access form, at a discounted fee. The Special Issue can be printed in book format, e-book can be downloaded for free, and hardcover can be ordered on Amazon, Apple books;
3. Meeting reports of SIV-ISV conferences will be published for free in *Viruses*;
4. Discounted publication fees for open access books;
5. [Sciforum.net](#) platform for organizing the SIV-ISV conferences and conference organising services at preferential rates; each individual member of the society can also use this platform free of charge if self-managed;
6. Promotion of the conference on the journal homepage;
7. The possibility to advertise the society news on the website of the journal and social media;
8. The possibility for the society and its members to post job announcements free of charge on the website of *Viruses*;

9. Promotion of SIV-ISV to all the Italian authors submitting to *Viruses*, thus helping increase its visibility and hopefully attracting more members to the society;
10. Reprints: high-quality, on-demand reprints of any article, volume or special issue;
11. Preprints service [preprints.org](http://preprints.org) : authors can make their manuscripts public before peer review.

#### What SIV-ISV could do for *Viruses*

1. SIV-ISV will recommend *Viruses* to its members as a preferred journal;
2. Display *Viruses* logo and a description of the journal on the SIV-ISV homepage;
3. Set up Special Issues with SIV-ISV conferences and collect selected papers from the conferences;
4. Promote the special issue at the SIV-ISV conferences.

The affiliation is a non-binding agreement and involves only mutual benefits.

The agreement is valid for an unlimited period of time, unless a notification is given by either party. Any of the party can cancel the agreement at any point in time.
