

**7th European Seminar in Virology (EuSeV)**  
**“Vaccines and antibodies against viral infections”**  
**June 14-16, 2019**

**Venue: Botanical Garden, University of Padova**

**Topics will include:**

- Innovative vaccines
- Synthetic and reverse vaccinology
- Recombinant viruses for vaccination strategies
- New therapeutic approaches using antibodies
- The use of antibodies to find new vaccine epitopes
- Ethical and regulatory aspects of vaccination

**Keynote speakers:**

**Abrignani, Sergio** (University of Milan, Milan, Italy)  
**Campadelli Fiume, Gabriella** (University of Bologna, Bologna, Italy)  
**Grignolio, Andrea** (S. Raffaele University, Milan, Italy)  
**Hammerschmidt, Wolfgang** (Helmholtz Zentrum München, Germany)  
**Klein, Florian** (University of Cologne, Cologne, Germany)  
**Kohn, Mel** (Europe at Merck/MSD Vaccines)  
**Marchant, Arnaud** (Université libre de Bruxelles, Charleroi, Belgium)  
**Mertens, Thomas** (Ulm University Medical Center, Ulm, Germany)  
**Mirazimi, Ali** (Karolinska University Hospital and KI, Stockholm, Sweden)  
**Montomoli, Emanuele** (University of Siena, Italy)  
**Palù, Giorgio** (University of Padua, Padua, Italy)  
**Rappuoli, Rino** (GSK, Siena, Italy; Imperial College, London, UK)  
**Silvestri, Guido** (Emory University School of Medicine, Atlanta, USA)  
**Sinzger, Christian** (Ulm University, Ulm, Germany)  
**Skehel, John** (Francis Crick Institute, London, UK)  
**Tangy, Frédéric** (Institut Pasteur, Paris, France)

**Organized by:** Giorgio Palù, Gabriella Campadelli Fiume, Michael Kann, Thomas Mertens, Dana Wolf on behalf of the European Society for Virology.
